

Suspicious Patterns Identification and Analysis - TGI

Use Case Notes

[UC30-01] - Awesense Energy Transition Platform Use Case

Overview

This manual is intended to:

- Provide instructions to create the selected use case in TGI.

For more details about Suspicious Patterns Identification and Analysis and how it can be analyzed using Awesense's Platform, please refer to the [UC30-01 - Suspicious Patterns Identification and Analysis.pdf](#) document.

Manual and TGI screenshots

This document shows the implementation process of the mentioned use case in the TGI visualization interface along with a description of how to create such a use case on your data.

The tool for finding suspicious patterns can be found under Investigations in the main menu (select from the main menu - top hamburger icon).

Next, you need to select the investigation we are interested in from the table.

The screenshot displays the True Grid Intelligence (TGI) web application. The top navigation bar includes the "True Grid Intelligence" logo, a hamburger menu icon, and the "Investigations" tab. A search bar is located on the right. The main content area is divided into two sections: a map of the United States on the left and a table of investigations on the right. The map shows various cities and states, with a scale bar indicating 300 km and 200 mi. The table, titled "Investigations", lists 7 investigations. The first three rows are highlighted with red borders, indicating they are the focus of the manual. The table columns are: Investigation, Type, Case, Consumers, Total Δ/day, Total Δ %, Owner, and Start.

Investigation	Type	Case	Consumers	Total Δ/day	Total Δ %	Owner	Start
Investigation of 39660	Exploratory		66			awesense-petr	1 Jun, 2023
Investigation of L7-124509	Exploratory		222			awesense-petr	1 Jun, 2023
Investigation of L22-46498	Exploratory		340			awesense-petr	1 Jun, 2023

The investigation instance will be opened on the next screen.

Use Case Notes

[UC30-01] - Awesense Energy Transition Platform Use Case

There is a "Consumer Breakdown" button in the left sidebar.

The screenshot displays the True Grid Intelligence (TGI) Awesense Energy Transition Platform interface. The top navigation bar includes the TGI logo, the text "True Grid Intelligence", a hamburger menu icon, the "Investigations" tab, the specific investigation "Investigation of 39660", and a "Map" button.

The left sidebar contains the following sections:

- Investigation of 39660**: Includes a "No Case" link, a "Read only" checkbox, and details for Circuit (North Central Zone), GIS Date (1 Jan, 2021 9:00 PM), Owner (awesense-petr), Starts (1 Jun, 2023 5:23 PM), and Description (No Description, with a "Show more / Update" link).
- Target Area**: Features tabs for Transformers, Meters, Consumers, and Producers (DERs). Below these is a table with columns for the category, a sub-column "A", and a total column "Σ".

The main map area shows a geographical view with a red-shaded region labeled "Boundary #01". Various road labels like "CR 140", "C-6", "C-5", "CR 9", "CR 41", and "SR 522" are visible. A scale bar at the bottom left indicates "1 km" and "1 mi".

In the bottom left of the sidebar, there are two buttons: "Zoom to Investigation" and "Consumer Breakdown". The "Consumer Breakdown" button is highlighted with a red rectangular box.

	A	Σ
Count	56	56
kVA	948	948

Use Case Notes

[UC30-01] - Awesense Energy Transition Platform Use Case

Here you must select the "Past Year Usage" tab.

Here you can see the consumption for each consumption point - "Usage (for Investigation Period and Last 12 months)" and also "Difference from Average". These values will help you to identify suspicious consumption points within your investigated segment (grid area).

General Note

- This description was created for TGI version 3.10.0. For future versions of TGI, the process might be slightly different.
- Access to the different parts of TGI varies depending on the permissions of the user.
- Users on the Sandbox environments currently have read-only permissions, therefore, this use case may be accessible only for viewing, not creation or editing. If you are interested in the latter, please contact Awesense.
- Some of the data for this use case may be available only on Sandbox tiers 2 & 3, but not on tier 1. If you are interested in upgrading your tier access, please contact Awesense.
- For more information please contact tools@awesense.com.
